25X1 1. [] terminated CIA employee, called to state
25X1 that she wished another appointment with me. I asked her if there was any-
25X1 thing which we had to discuss and she said there was still open the question
25X1 of whether her termination could be changed to a resignation. I told []
25X1 [] that I had discussed this matter and that there would be no opportunity
25X1 to revise the termination. She stated that there were still things to discuss,
25X1 but I suggested that she take all matters up with [] and that if
25X1 they were legal in nature [] would refer them to this office.
